

COMPANY PROFILE

2026

A leading Jordanian construction company since 1985. Specialized in civil, mechanical, and electrical works.

BUILDING TOMORROW CONSTRUCTION SINCE 1985

1985

Established in 1985 as a general maintenance provider, IHCC has grown into a trusted engineering entity — a member of the Jordanian Contractors Association (No. 1482).

2026

With 40+ years of experience, IHCC is ready for commercial, healthcare, and educational projects — delivering structural repairs, MEP works, and full ISO 9001/14001/45001 quality and safety standards.

TABLE OF CONTENT

Introduction 01

Ismail Al-Hersh Contracting Co. was founded in 1985 as a provider of general maintenance services.

Our clients 06

Our thorough services have earned trust and loyalty from leading firms across Jordan.

Our projects 07

Over 45 completed projects across Jordan, with public sector contracts totaling JD 70.9 million.

INTRODUCTION

Our history

Ismail Al-Hersh Contracting Company was established in 1985 as a general maintenance provider and later grew into a first-class construction company in Jordan (Contractors Association ID: 1482), led by Eng. Mohammad Al-Hersh.

"Some carry a name. I carry a legacy."

When my father established this company in 1985, he built it on something simpler than strategy – showing up, doing the work right, and never compromising on what he promised.

Forty years later, those values remain the foundation of IHCC. Every project we deliver carries the trust earned over four decades – a trust I consider my responsibility to honour and grow. Our ambition is not only to grow in scale, but to grow in impact – to be remembered not just for what we build, but for how we make our clients feel throughout the journey.

The strongest foundations are built not only with concrete and steel, but with reputation, relationships, and uncompromising standards. **The best is still ahead of us – and we intend to build it.**

**WELCOME TO
IHCC!**

CEO MESSAGE

ABOUT US

Our story

Founded in 1985, Ismail Al-Hersh Contracting Company began as a general maintenance provider. Under the leadership of Eng. Mohammad Al-Hersh, it grew into a first-level construction company serving individuals, institutions, and government bodies across Jordan.

45+

Projects successfully completed across Jordan's governorates in sectors including education, healthcare, energy, and civil defense — reflecting four decades of trusted construction expertise.

First-Level Contractor

Membership ID 1482 in the Jordanian Contractors Association — certified for building construction, electromechanical, and water & sanitation works.

Safety First, Always

Every project is executed under strict safety protocols to protect our workforce and surrounding communities.

Uncompromising Quality

From foundations to finishes, we uphold the highest engineering and construction standards on every project we deliver.

Built on Integrity

We maintain full transparency with clients, consultants, and partners throughout every phase of construction.

JD 70.9M

Total value of completed public sector contracts, delivered on time and to the highest construction standards across multiple governorates.

OUR VISION

To be the most recognizable name in construction, known for quality and innovation — serving as the market's top contractor.

We aim to set the benchmark for construction excellence in Jordan, building long-lasting relationships with clients while delivering projects that stand the test of time.

VISION

Leading Jordan's Construction Sector

To serve as the market's top contractor by supporting our team, embracing innovation, and delivering outstanding results on every project.

MISSION

To build lasting relationships with our clients by delivering the best construction services at competitive, market-driven prices.

Our mission is to provide comprehensive construction solutions — civil, mechanical, and electrical — that meet the highest standards of quality and safety. We are committed to completing every project on time, within budget, and to the full satisfaction of our clients and partners.

OUR VALUES

Our values are the foundation of every project we build and every relationship we grow.

- Safety
- Integrity
- Respect
- Quality
- Collaboration
- Innovation
- Sustainability

OUR TEAM

Established in 1985 as a company specialized in general maintenance services, IHCC has since evolved into a reputable engineering entity in the construction sector — with over 40 years of experience and full commitment to international quality standards and public safety regulations.
